

## **GIVE ME AWAY**

**Amanda Grace**

Can I walk with dignity as my ancestors did?  
Can I stand strong and believe in myself?  
Can I be humble and still proud - still real with each little step?  
Can I be a parent in this age and not lose my mind in it?  
Can I lead them out if I don't wanna leave the house?  
Can I stand tall if I shouldn't compare myself?  
Can I have love and a calling too?  
Can it be a type of love that sings its own tune?

Can I be every little thing that everyone else needs?  
Can I be every little thing that everyone else needs?  
Evenly I give me away; I give me away; give me away

Can I make a change in this place where I stay?  
Can I share my stories in a way that they remember me?  
Can I be a beacon when I can't see my own way?  
Can I love other people when they don't have the same faith?  
Can I find a prophet when they've all been killed?  
Can I fix the broken systems I've helped fulfill?  
Can I stop this rage when I'm pissed with all I've paid?  
Can I steal back my time and enjoy what I've made?

Can I be every little thing that everyone else needs?  
Can I be every little thing that everyone else needs?  
Evenly I give me away; I give me away; give me away

I give me away; I give me away; give me away  
I give me away; I give me away; give me away  
I give me away; I give me away; give me away

## **Wouldn't Be You**

**Amanda Grace**

You want what you want.  
And most of the time you get it.  
You're true to yourself and you don't see your selfish.  
The line is the line but it can be moved if wanted.  
Can't get in your way or baby there's hell to pay.

I can't live this way all of my days.  
I'm just a slave, a slave, a slave.

I'm done with this I'm done with you and all the things you do.  
Done with lies all the time; I can't believe that I thought you  
that I thought you wouldn't be you.

The longer I've stayed oh the worst you've played.  
The game is the same and you win everyday.  
The stronger you get the threats have defined themselves.  
The risk that I've made could be the one that pays.

I can't live this way all of my days.  
I'm just a slave, a slave, a slave.  
I'm done with this done with you and all the things you do.  
Done with lies all the time; I can't believe that I thought you  
that I thought you wouldn't be you.

I'm done with this done with you and all the things you do.  
Done with lies all the time; I can't believe that I thought you  
that I thought you wouldn't be you.

So here I am  
I alone must face this; I know that I can.  
I am sick of these silent traps; I know you're below  
Where I, where I need to go.  
Now I'm running to see what I'd be without your hands around me.

So I'm not a slave, a slave, a slave  
I'm done with this done with you and all the things you do.  
Done with lies all the time; I can't believe that I thought you  
that I thought you wouldn't be you.

I said I'm done with this and I'm done with you  
and I'm done with lies all the time; I can't believe that I thought you  
No I can't believe that I thought you wouldn't be you.

## **Hey Pretty One** **Amanda Grace**

Hey pretty one I see you walked this way  
Trying not to stare as you turn your face  
Hey pretty one I'm pretty sure you looked at me  
Yeah

Hey pretty one you know I'm kinda shy; not typically the one who'd be your type  
You think there's a chance you'd give us a try

yeah

I think I could love you  
If you really want me to  
I think I could love you  
If you really want me to.

Hey pretty one I saw you at the bar  
Tried to say hello but then I took it too far  
Hey pretty one  
I will say no more

I think I could love you  
If you really want me to  
I think I could love you  
If you really want me to

I know I've heard your name before  
Let's talk about your life some more  
Maybe we'll have a drink of two  
I think I'm falling for you

Hey pretty one yeh you know yourself  
Hey pretty one go find someone else  
Hey pretty one its good to know yourself  
Hey pretty one now find someone else

I think I could love you  
If you really want me to  
I think I could love you  
If you really want me to

Hey pretty one  
Hey pretty one

## **Love Yourself Amanda Grace**

I know something is wrong but you won't say  
What it is, what'd I miss, is it raining?  
Won't look up, welling up, you can't be ok.  
I've been telling you some people gotta prove  
They're better than you; and you're starting to think that its true

And every fake smile you see it in their eyes; they're hurting' but they're gonna keep on telling you the lies.

Try to remember that he just hates himself  
And he's taking it out you; don't you forget your smile brings the sun  
And you know I love and I wanna help  
But you gotta first love yourself

I know someday you'll look back and see  
That some goodness came from this pain  
Taking out all the broken things like a string  
And it may take awhile for you to find your fire  
Filling up your life with people who are on your side  
And each choice you make you're further away  
From the facade parade they try to make you watch each day

Try to remember that they just hate themselves  
And they're taking it out you  
Don't you forget your smile brings the sun  
And you know I love and I wanna help  
But you gotta first love yourself

Believe me  
I wouldn't lie  
about this

Try to remember that you do love yourself  
And stop taking it out on you  
You are a force of light of love  
As long as you're standing on your truth  
Don't you forget your smile brings the sun  
And you know I love you and I wanna help  
And you know I love you and I'm here to help  
But you gotta first love yourself

### **The Last Ones** **Amanda Grace**

Life can be so hard and heavy  
All the things we're supposed to do  
All the problems we live through  
Wanna change it up  
Need to watch it all go up  
As I pull away and then

Have to do this time again  
My friend  
My friend  
My friend

We will be the ones the last ones to give in  
Yeh its time for us to live  
Wanna be like kids again  
We will be the ones outside your door  
Wanna come and hang some more  
Again  
Again  
Again

I've seen your face  
All shadowed in and grey  
You have lost the light of you  
After all he put you through  
You wanna go walk a new avenue  
Knowing you can erase  
All the lines he tried to trace  
On you  
On you  
On you

We will be the ones the last ones to give in  
Yeh its time for us to live  
Wanna be like kids again  
We will be the ones outside your door  
Wanna come and hang some more  
Again  
Again  
Again

I would do anything to see you pulling through  
The shadows  
That hold you  
Cutting through the ropes  
That are silencing your words your hopes  
The crazy games that make you stay  
On your couch and afraid

You will be the last one to give in  
Oh its time for you to live

Try to be a kid again  
You will be the last one to give in  
Oh its time for you to live  
Try to be a kid again  
I will be the one outside your door  
Saying come and hang some more my friend  
Again  
Again  
Again

**Mother's Lullaby**  
**Amanda Grace**

Rock-a-bye yourself tonight  
All alone; it's your turn to cry  
Lay down that list go ahead and sigh  
Mother's lullaby  
Rockabye yourself tonight  
All emptied out all you've done is try  
You've done it all, now just close your eyes  
Mother's lullaby

Honey let go  
You don't have to worry  
You don't have to strive  
Honey let go  
Every little thing lady, every little thing  
Will turn out all right  
Better than fine

Rock-a-bye yourself tonight  
Life's upside down, with no song or rhyme.  
You're worth it all, now take some time  
Mother's lullaby  
Rock-a-bye yourself tonight  
Pull down those sheets and turn down the lights.  
Can't win them all; now just say goodnight  
Mother's lullaby

Honey let go  
You don't have to worry  
You don't have to strive  
Honey let go  
Every little thing lady, every little thing

Will turn out all right  
Honey let go  
You don't have to worry  
You don't have to strive  
Honey let go  
Every little thing darling every little thing  
Will turn out all right  
Better than fine  
Better than fine

**New Year**  
**Amanda Grace**  
**Joleen Aguilar**

Sitting in my car ignoring everything out there  
All burned out and counting down the years  
Sharing time I don't have  
Is it a crime to feel bad  
I'm working hard but never get ahead  
Resolutions that never see the light

Its a new year baby and I wanna fly  
Across the tears of the sky  
It's a new year baby and I wanna smile  
This time is mine

Work until they all know my name  
I haven't quit; and now I see change  
Taking the time that I need  
Letting my heart go seed  
Telling myself it's ok to breathe  
These illusions that  
Need to leave my head.

Its a new year baby and I wanna fly  
Across the tears of the sky  
It's a new year baby and I wanna smile  
This time is mine

Nothing is holding me back from this dream of mine  
I know if I don't seek then I'll never find  
Nothing is holding me back  
Nothing is holding me back

It's a new year baby and I wanna fly  
Across the tears of the sky  
It's a new year baby and I wanna smile  
This time is mine

**Can't Take My Eyes Off Of You  
(COVER VERSION)**

You're just too good to be true.  
Can't take my eyes off of you.  
You'd be like heaven to touch  
I wanna hold you so much  
Long last love has arrived  
And I thank God I'm alive  
You're just too good to be true  
Can't take my eyes off of you

Pardon the way that I stare  
There's nothing else to compare  
The side of you leaves me weak  
There are no words left to speak  
But if you feel like I feel  
Please let me know if it's real  
Can't take my eyes off of you

I love you baby and it's quite alright  
And if it's quite alright I need you baby  
To warm the lonely night  
I love you baby  
Trust in me when I say

You're just too good to be true.  
Can't take my eyes off of you.  
You'd be like heaven to touch  
I wanna hold you so much  
Long last love has arrived  
And I thank God I'm alive  
You're just too good to be true  
Can't take my eyes off of you

I love you baby and it's quite alright  
And if it's quite alright I need you baby

To warm the lonely night  
I love you baby  
Trust in me when I say

I love you baby and if its quite alright  
And if its quite alright I need you baby  
To warm the lonely night  
I love you baby  
Trust in me when I say

Oh pretty baby  
Don't bring me down I pray  
Oh pretty baby  
Now that I found you'll stay  
And let me love you  
Let me love you oh baby  
Oh baby oh baby

**Best Part Of Me**  
**Amanda Grace**

You've always been that kind of man  
Who has a Kindness deep within  
All this time you help me through  
Although I thought I'd never love like this again

I love you more than all the years before  
I knew you as my closest friend  
I'll give you time making sure you've got every bit of my heart again  
Piece by piece again  
I'll give you the best part of me

You know me and my weaknesses  
You're standing there no matter how hard it's been  
You won't win anything for this  
Waiting up all night for my little kiss

Cause I love you more than all the years before  
I knew you as my closest friend  
I'll give you time making sure you've got every bit of my heart again  
Piece by piece again  
I'll give you the best part of me

You know

I know  
They don't know all of it  
The times we've missed  
The hours we sit  
Just to admit  
That we're broken and miss  
But we've made a promise on this

I love you more than all the years before  
That I knew you as my closest friend  
And I'll give you time  
Making sure you've got every bit of my heart again  
Piece by piece again  
I'll give you the best part of me

**Rain Or Snow**  
**Amanda Grace**  
**Joleen Aguilar**

Is it rain or is it snow  
Trying to see what which way to go  
Do I open up my heart  
And make a brand new start?  
Is it rain or is it snow  
Do I close my heart up cold?  
I see you reaching out to me and I'm just trying to see  
Is it rain or is it snow?

I know you want an answer from me but I've going my way  
I know you'd like to say what this is  
But I've been feeling so free  
I need to clear up my space  
I've got no time to waste

Is it rain or is it snow?  
Tryin to see which way to go  
If I choose to be alone  
Would your heart turn into stone?

You say the answers are here  
But I'm thinking the same  
The road we're on may be converging  
But all I see is rain

I pray that we would start to know our way

Is it rain or is it snow?

Trying to see what which way to go

Do I open up my heart

And make a brand new start?

Is it rain or is it snow

Do I close my heart up cold?

I see you reaching out to me and I'm just trying to see

Is it rain or is it snow?

### **All We Need**

**Amanda Grace**

**Matt Patrick**

The words we choose are just like the weather

They can split us apart or bind us together

Heated debates or a cold shoulder

Might get too hot or ice out your neighbor

Black or white

Red or blue

You need me just like I need you

People we gotta learn to love one another

Got to stand up together and believe

We need each other, my sister my brother

Got to stand for each other and see

We're all we need

The way you think is linked to your own past

It can bog you down or make you judge too fast

Stuck in your ways, your mold has been cast

If you wanna be first you might come in last

People we gotta learn to love one another

Got to stand up together and believe

We need each other, my sister my brother

Got to stand for each other and see

We're all we need

Ooooh, If the stars could align

Ooooh, and the walls divide

You and me

We're a family  
You know we're all we need

People we gotta learn to love one another  
Got to stand up together and believe  
We need each other, my sister my brother  
Got to stand for each other and see  
We're all we need  
We're all we need
